U.S. MARINE CORPS TECHNICAL INSTRUCTION

TEST MEASUREMENT AND DIAGNOSTIC EQUIPMENT (TMDE)
CALIBRATION AND MAINTENANCE SUPPORT

Encl: (1) Marine Corps Calibration Facilities

1. Purpose. To provide information to aid Commanders in obtaining calibration and maintenance support for Marine Corps procured TMDE.
2. Cancellation. TI-4733-15/6B
3. Information. The current edition of TI-4733-15/1 provides instructions for identification of TMDE that requires calibration.
4. TMDE Calibration and Maintenance Support Availability. Calibration and maintenance support for TMDE is available to Marine Corps organizations as outlined below:
 - a. Marine Corps Calibration Facilities. Marine Corps calibration facilities are listed in the enclosure and fall into two categories:
 - (1) Marine Forces (MARFOR) Calibration Facilities. MARFOR calibration facilities are transportable and will normally deploy with the MARFOR unit to which assigned.
 - (2) Non-Marine Forces (non-MARFOR) Calibration Facilities. Non-MARFOR calibration facilities are fixed-installations and are not subject to deployment.
 - b. Interservice Support Agreements (ISSAs). ISSAs may be initiated for calibration and maintenance support of Marine Corps TMDE. Calibration intervals and procedures used for Marine Corps TMDE calibrated by other military services will be determined by the service providing the support.

c. Contractor/Commercial Calibration facilities. Contractor/commercial calibration and maintenance support of Marine Corps TMDE is acceptable to the Marine Corps provided the calibration system meets the requirements of MCO 4733.1_. The certified calibration intervals for contractor/commercial calibration will be in accordance with NAVAIR 17-35MTL-I (METRL). Placement on automatic distribution of the METRL can be obtained by contacting the Commander Naval Surface Warfare Center, Corona Division (MS-43), PO Box 5000, Corona, California 92878-5000.

5. Funding for Calibration and Maintenance Support of Marine Corps TMDE. Local funding is required for TMDE calibration and maintenance support received on a reimbursable basis.

6. Assistance in Obtaining Calibration and Maintenance Support. When assistance is required in obtaining calibration and maintenance support for Marine Corps procured equipment, submit a letter to the Commanding General Marine Corps System Command (CESS/TMDE/CTMS), 2200 Lester Street, Quantico, Virginia 22134-6050, via the appropriate chain of command. Include a complete inventory of the equipment requiring support to include manufacturer, model number, TAMCN, ID# and quantity.

BY DIRECTION OF THE COMMANDANT OF THE MARINE CORPS
